Shining Through the Years
Bringing Sisterhood to Life

A Vision Becomes Reality

Marian Johnson Frutiger, Gamma Gamma, continues to touch the lives of Sigma Kappa members.

The authors of Order of the Triangle Ceremony. Front row (L-R): Marian Johnson Frutiger, Gamma Gamma, and Helen Tousses Manlove, Alpha Nu. Back row (L-R): Nell Jean Muelbrad, Gamma Chi Sheryl Wilson, Gamma Chi, Sharon Burner Wilson, Gamma Chi, and Glenna Gindorf Pierpont, Gamma Chi.

Throughout her life, Marian Johnson Frutiger, Gamma Gamma, brought sisterhood to life through her commitment to Sigma Kappa Sorority. Marian shared her time, her talents, and her treasure to ensure the success of the Sorority and the sisters that she cherished.

While serving as national ritual chairman, Marian was asked by national council to develop a ceremony affirming that the bond of Sigma Kappa grows stronger and more special with time. That ceremony, created with Marian’s guidance by six women from the Houston Alumnae Chapter, was accepted as a part of the Sigma Kappa ritual in 1978. Today, the words of the Order of the Triangle continue to influence the lives of Sigma Kappa members.

In over 20 years of service as a collegiate province officer, Marian’s witty, fun-loving personality afforded many collegiate women the opportunity to see sisterhood in action. Marian was a role model and a mentor to many alumnae as well. Described by her peers as “a woman with a positive mindset,” Marian believed in the value of Sigma Kappa membership. Jane Kramer Allan, Alpha Iota, worked with Marian as a collegiate province officer and shared, “Everyone who met Marian fell in love with her.”

Marian’s love for her sorority was evident when, in a bequest to Sigma Kappa, she provided an ongoing gift of scholarships and educational programming. Marian’s own words, from the installation of Gamma Chi Chapter, Stephen F. Austin State University, summed up her feelings about Sigma Kappa. She said, “Our five Founders were young ladies of action and vision, and on that night of November 9, 1874, they banded together to form the Sigma Kappa sisterhood...A vision that become a bond that would forever hold Sigma Kappa together! Thus, a vision or dream has become reality...Yes! With One Heart, One Way!”

Sigma Kappa Triangle Corrections

Anne Weaver Booske, Gamma Epsilon, was listed with the incorrect chapter of initiation in the autumn 2002 issue.

The North Harris County Alumnae Chapter was not listed as having won the Alumnae Panhellenic Award.

The Sigma Kappa Triangle staff regrets and apologizes for these errors.
To the editor,
In all the years I have received your publication, this is the first time I've written regarding an article. The "Keeping the Promise, Alumnae Influencing the Lives of Others" was the best thing I could ever read in an alumnae magazine. I enjoyed it immensely. Please keep these sort of inspiring articles coming.

To the editor,
Sigma Kappa has reached a very important milestone and it is one that should be celebrated. Six years ago when National Council established 3.0 as a national scholarship goal, many thought it impossible. It gives me great pleasure to report that Sigma Kappa has achieved a 3.0 overall gpa.

It was Walt Disney who said, "It's kind of fun to do the impossible." What was once thought to be impossible is now a reality. Congratulations to all our chapters for their dedication to scholastic excellence.

Dear Sigma Kappa sisters,

Sigma Kappa Sorority has been 'Shining Through the Years' since our founding. Whether scholastically, socially, or philanthropically, we have much to be proud of as members of this premier organization. This issue focuses on how Sigma Kappa continues to shine brightly 128 years after its founding.

Sigma Kappa collegiate members have been improving scholastically; in Spring 2001, we reached the goal of a 3.0 overall gpa. On page 19, read how our chapters continue 'Reaching for the Stars' to achieve the Sigma Kappa Standards of Excellence Award.

Sigma Kappa alumnae and collegians have been very successful philanthropically, volunteering over 96,000 hours in the past year. We have donated thousands of items to the Maine Sea Coast Missionary Society since its adoption as a national philanthropy in 1918. Since 1984, Sigma Kappa has worked side by side with the national Alzheimer's Association, contributing over a million dollars to Alzheimer's Disease research.

Page 29 honors our 75-Year and 50-Year members who inspire us to remember that Sigma Kappa is a lifetime commitment. Congratulations to the women initiated in 1927 and 1952.

I hope you enjoy this issue of the Sigma Kappa Triangle. The spring 2003 issue will feature a story about the importance of our legacies and the recruitment dates for our collegiate chapters.

The mission of the Sigma Kappa Triangle
To provide a vehicle for an active exchange of information significant to Sigma Kappa membership.

Shining Through the Years
Sigma Kappa’s History of Philanthropic Service

by Linda Stansberry Bobo, Delta Chi, Sigma Kappa Triangle Features Editor

Through the years, service and philanthropy have equaled caring, loving, and giving for the members of Sigma Kappa Sorority. For over a hundred years, Sigma Kappa has been involved in serving others. In 1918, Sigma Kappa adopted the Maine Sea Coast Missionary Society (MSCMS) as the first national philanthropy. Gerontology was added in 1954. Thirty years later, in 1984, Alzheimer’s Disease research captured Sigma Kappa’s attention and became the third philanthropy. Finally, Inherit the Earth was adopted in 1992. Sigma Kappa’s commitment to volunteerism and financial support for these national philanthropies provide numerous opportunities for alumnae and collegians.

Prior to the adoption of the first official philanthropy, Sigma Kappas at the thirty-seventh convention in 1911 voted to give altruistic work official recognition by affirming that “during the next year each active and alumnae chapter pledge itself to do at least one philanthropic act.” In response, Sigma Kappas supervised a sewing school in Waterville, Maine; entertained patients at the Boston Home of Incurables; and established a social settlement in the poorest district of Syracuse, New York.

Loyalty to these causes was the springboard to create a humanitarian interest for the Sorority as a whole, yet without sacrificing all efforts in local philanthropy. The Grand Council considered a vast field of worthy endeavors and presented the opportunities of the Maine Sea Coast Missionary Society to the forty-first convention of Sigma Kappa. In honor of our five founders from Maine, the 1918 convention adopted the Mission as the Sorority’s first national philanthropy.

“Since 1911, for nearly a century, the outpouring of good will from Sigma Kappa chapters around the nation has been astounding,” said Gary DeLong, Maine Sea Coast Missionary Society executive director. Each day, care packages from Sorority members are delivered to the Mission’s door containing gifts for the home-bound elderly, isolated island populations and children in need who would otherwise be forgotten during the Holidays. The MSCMS’s purpose is to bring humanitarian aid, spiritual comfort, hope, encouragement, and strength to thousands each year along coastal Maine. The Mission allows the sick to be visited, the needy to be clothed, and the hungry to be fed.

Annually, Sigma Kappa members provide a monetary gift as well as contributing thousands of boxes of donated items to the Holiday Program. This seacoast island program reaches over 3,000 home-bound elderly, children, and families each year. Traditionally wrapped in white paper and tied with red string, the Mission’s gifts provide families with a sense of self-worth rather than disappointment during the Holidays. The elderly and families are touched by the generosity shown each year by Sigma Kappa members. MSCMS Executive Director Gary DeLong said, “without a doubt, the success of the Mission’s outreach to those in need is due in large part to Sigma Kappa Sorority’s extraordinary support.”

It is not uncommon for Sigma Kappas to visit Maine during summer. Sorority periodicals record visits from Sigma Kappas in the early 1900’s. Many of these women have passed along their
Learning While Serving

Historically, members of Sigma Kappa volunteer hundreds of hours each year to serve senior living and Alzheimer’s care facilities. In 2001, alumnae and collegians reported over 47,000 hours of gerontology-related activities. Given the commitment of the members, it seemed appropriate that the summer conferences, convention and College Officer’s Training School (COTS), would offer programming to support Sigma Kappa’s interest in gerontology and Alzheimer’s disease.

At COTS 1999, a pre-conference program was organized for collegians and alumnae. Sponsored by the Sigma Kappa Foundation, the first Learning While Serving (LWS) was developed by Angela Guillory, Delta Mu. “In designing the program, it was important to achieve three outcomes. First, that the activity meet an actual need. Second, that the activity allow members to learn more about the people and the disease. Third, that our members have an opportunity to reflect on the experience and its impact on their personal perspective.”

Angela continued, “We hoped that the experience would be so meaningful that our members would then duplicate the program in their own communities.”

At convention 2002, LWS was held at ENCORE senior living facility. Thirty-six alumnae and collegians hosted an ice cream social and a sing-along with the residents. One member stated, “I would definitely participate in the future. It was a rewarding experience to see the residents smile and to interact with them. I feel we enhanced their lives and brought them joy. I would recommend this activity to all my sisters.”

Sigma Kappa Foundation President Jane Kramer Allan, Alpha Iota, said, “Learning While Serving is a wonderful educational experience, and it shows how the philanthropic endeavors sponsored by the Sigma Kappa Foundation help others. The Foundation is delighted to be able to offer Sigma Kappa members the opportunity to participate in this valuable program.”

impressions to the Sorority, validating the needs and affirming the fine work being done there. Rev. DeLong continues, “It is a reassuring and rewarding feeling to know that the Maine Sea Coast Missionary Society has this powerful network of nationwide support which, for some women, grows into a lifelong loyalty.”

In the 1950’s Sigma Kappas were asked to consider volunteer work in gerontology, not as a replacement for the MSCMS, but in addition to it. A June 1955 Sigma Kappa Trianglette reported that alumnae and collegiate chapters were enthusiastically supportive of this added opportunity for service both locally and nationally. Members visited with the elderly, addressed and mailed greeting cards, shopped for shut-ins, donated books and magazines to care facilities, and presented holiday programs for residents in nursing homes. Still today, Sigma Kappas nationwide are sharing these same activities in addition to chapters coordinating Adopt-a-Grandparent programs or hosting Senior Proms with local care facilities.

When Alzheimer’s Disease was approved in 1984 as a new focus of Sigma Kappa’s philanthropy, it was a natural companion to our members’ previous work with gerontology. The longtime dean of the confirmed conventionites and editor of the Sigma Kappa Triangle for 48 years, Frances “Speed” Baker, Psi, had recently been diagnosed with Alzheimer’s Disease, and this deeply affected many Sigma Kappas who loved and respected her. Members of all ages organized city and campus fundraisers, sponsored speakers for educational seminars on Alzheimer’s Disease, and devoted personal time to working with Alzheimer’s victims or their families.

Sandra Koch Drake, Gamma Theta, and collegian enjoyed spending time with a resident of the ENCORE senior living facility in Scottsdale, AZ, during Learning While Serving.

In support of Sigma Kappa’s commitment to finding a cure for Alzheimer’s Disease, chapters began selling lollipops in the fall of 1984 to raise money for research. That first year $5,000 was donated to the newly organized Alzheimer’s Disease and Related Disorders Association (ADRDA). Since that initial gift, Sigma Kappa has become one of the world’s largest contributors to Alzheimer’s Disease research in the world contributing over a million dollars collectively.

In the summer of 2000, Sigma Kappa and the national Alzheimer’s Disease and Related Disorders Association developed a powerful new partnership, which has enabled Sigma Kappa’s efforts and funds to stretch even further in battling Alzheimer’s Disease and related disorders. Recognized as a “Partner in Progress” by the national Alzheimer’s Association, Sigma Kappa Foundation pledged to contribute $50,000 annually to fund research projects at the national level. This grant complemented Sigma
Kappa's significant prior support of Alzheimer's Disease and gerontology-related research.

The first researcher to benefit from the generosity of the Sigma Kappa grant was Dr. Rhonda L. Akkerman, Ph.D., who works at the University of Texas-Houston. Dr. Akkerman's project "Managing Anxiety in Caregivers of Alzheimer's Disease Patients: An Intervention" recognized the significant stress and anxiety associated with caregiving. With over four million Americans suffering from Alzheimer's Disease, Dr. Akkerman's research is not only timely but valuable.

"The Alzheimer's Association is proud to count Sigma Kappa among our largest membership organization donors," says Sally McMillan, associate director of corporate and foundation relations for the ADRDA. "A core goal of our Association's mission is to enhance care possible for individuals with Alzheimer's Disease."

Sigma Kappa members have also generously given their time and talents for the local Alzheimer's Association chapters and the Memory Walk. In 2001, nearly 14,000 hours were volunteered nationwide for the Alzheimer's Association. The dollars raised at each local Memory Walk stay in that particular community to help create and maintain vital Alzheimer-related programs and services. Sigma Kappa members often assist with planning, publicity, or fundamental logistics for the Memory Walk.

Ms. McMillan was eager to acknowledge the tremendous impact of Sigma Kappa's efforts on behalf of the Alzheimer's Association. She said, "Philanthropy and service are not empty words for Sigma Kappa members; they are commitments fulfilled year after year."

Rounding out Sigma Kappa's dedication to gerontology as a national philanthropy was the addition of Inherit the Earth.

Unveiled at the 1992 national convention, Inherit the Earth offers Sigma Kappas the opportunity to collaborate with local senior citizens while taking an active role in community-based environmental service projects. Sigma Kappa's Inherit the Earth includes projects such as recycling, preventing pollution, protecting wildlife, conserving energy, planting trees or flowers, creating activity modules for schools, cleaning up beaches, vacant lots or roadsides, and participating in community-sponsored environmental programs.

Sigma Kappa members have much to be proud of with the Sorority's involvement in national philanthropy projects and the continued participation of members in their local communities. Last year, Sigma Kappa's collegiate and alumnae chapters volunteered over 96,000 hours to philanthropy projects and contributed over $275,000 in addition to the significant contributions of the Sigma Kappa Foundation.

Clearly, Sigma Kappa's mission of "service for the greater good" inspires members throughout their lifetime. Alumnae and collegians have embraced the concept of serving others while understanding the value of their ongoing philanthropic contributions. Nationally, Sigma Kappas make a real difference on their campuses and in their communities. Sigma Kappa members truly continue shining through the years in philanthropy and service to others.

"Philanthropy and service are not empty words for Sigma Kappa members; they are commitments fulfilled year after year."

Sally McMillan, associate director of corporate and foundation relations for the Alzheimer's Association
Reaching for the Stars
Sigma Kappa collegiate chapters strive to receive a Standards of Excellence Award

Sigma Kappa collegiate chapters are reaching for the stars and continue to shine brightly within the national organization. These stars illuminate our Sorority every year through Sigma Kappa's Standards of Excellence.

In 1995, Sigma Kappa Sorority developed Standards of Excellence (SOE) as a means for each collegiate chapter to measure their successes and endeavors while striving to uphold the vision of Sigma Kappa. A vision that states, "Sigma Kappa is to be a premier Sorority forever achieving excellence in our chapters and among members and influencing the lives of others."

Standards of Excellence examines each chapter's operations regarding scholarship, new member education, recruitment, member development, chapter management, social responsibility, alumnae relations, Greek participation, college/university relations, philanthropic service, and ritual.

The levels are as follows:
- Three Star Standards of Excellence
- Two Star Standards of Excellence
- One Star Standards of Excellence
- Minimum Standards

Maintaining and improving the quality of every collegiate chapter's sorority experience, Standards of Excellence helps chapters assess their performance on an annual basis by developing standards of best practice. Each collegian contributes to the commitment of attaining these standards by establishing chapter goals, increasing effective programming, building morale and pride, and protecting our Sorority's high ideals.

Kelly Harp Haber, Beta Epsilon, collegiate province officer, stated, "Standards of Excellence is a challenging program to encourage our collegiate chapters to reach their highest potential. SOE truly sets the standards that Sigma Kappa Sorority wants to achieve with a system that is manageable and organized for collegiate chapters to understand and follow through."

Collegiate chapters not meeting minimum standards are provided assistance and training to improve chapter management. Goals for improvement are discussed and action plans are developed for each objective to be met.

Jane Burton Cooper, Omega, national vice president for collegiate chapters said, "Standards of Excellence allows each collegiate chapter to be measured by the same yardstick. It gives them an opportunity to visually track their successes."

Standards of Excellence allows us to recognize and take pride in the accomplishments of the collegians. Over the past six years, Sigma Kappa chapters have made significant strides in achieving these high ideals. In 2001, over 40 collegiate chapters increased their Standards of Excellence rating. In 1995, no chapters achieved the 3 Star standards, 2% achieved the 2 Star standards, and 4% achieved the 1 Star standards. This year, Sigma Kappa chapters were reaching for the stars with 17% at the 1 Star level, 12% at the 2 Star level, and 6% at the 3 Star level of excellence.

"Standards of Excellence is a great way to get our collegiate chapters motivated. Each year collegiate chapters strive to do even more to reach the next level of excellence, which in turn helps the chapter grow stronger and develop better leaders," said, Laura Owsley, Alpha Chi, collegiate district director.
